

Manifesto for Head of Programming Position
Katharina Moos Bille

Hi, my name is Kat and I am running to be the next Head of Programming at Radio Caley. I am currently in my first year of studying Multimedia Journalism and I have been presenting the show First Look on Radio Caley since the beginning of the year.

As Head of Programming I would aim to:

- Ensure quick response time to questions and queries
- Create a timeline for the beginning of the semester with dates of presenter training, deadlines for show proposals and a deadline for when the show schedule is to be released, to ensure the start-up of the station is as quick and smooth as possible
- Give presenters the opportunity to not only get the required training to go on air, but that they can ask questions and get feedback on their shows to potentially further develop their shows and radio presenting skills

Aside from university, I host and produce the podcast We Moved to Glasgow and I created and work as Head of Business on the audio-culture magazine LYD (lydmag.com), which shows my affinity for organisation, not only in my personal life, but also on large-scale projects.

As a journalism student with an aim of getting a career in radio, I am determined to work hard to ensure that we make Radio Caley the best it can be.
