Stories from a lost American classic "in the same arena as Alice Munro" (Lydia Davis) "In the field of short fiction, Lucia Berlin is one of America's best kept secrets. That's it. Flat out. No mitigating conditions." --Paul Metcalf *A Manual for Cleaning Women* compiles the best work of the legendary short-story writer Lucia Berlin. With her trademark blend of humor and melancholy, Berlin crafts miracles from the everyday--uncovering moments of grace in the cafeterias and Laundromats of the American Southwest, in the homes of the Northern California upper classes, and from the perspective of a cleaning woman alone in a hotel dining room in Mexico City. The women of Berlin's stories are lost, but they are also strong, clever, and extraordinarily real. They are hitchhikers, hard workers, bad Christians. With the wit of Lorrie Moore and the grit of Raymond Carver, they navigate a world of jockeys, doctors, and switchboard operators. They laugh, they mourn, they drink. Berlin, a highly influential writer despite having published little in her lifetime, conjures these women from California, Mexico, and beyond. Lovers of the short story will not want to miss this remarkable collection from a master of the form. *Field Manual FM 3-90-1 Offense and Defense Volume 1 Change 2 April 2015* contributes to the Army and joint community by providing guidance on the conduct of the offense and defense. It describes both combat-tested tactics and procedures

that have been modified to exploit emerging Army and joint offensive and defensive capabilities. FM 3-90-1 expounds on the doctrinal fundamentals established in Army Doctrine Reference Publication (ADRP) 3-90. ADRP 3-90 must be read before reading FM 3-90-1, since that is where doctrine for the conduct of offensive and defensive tasks and the art and science of tactics is found. FM 3-90-1 addresses the basic tactics associated with the conduct of offensive and defensive tasks. The principal audience for FM 3-90-1 is all members of the profession of arms. Commanders and staffs of Army headquarters serving as a joint task force or multinational headquarters should also refer to applicable joint or multinational doctrine concerning the range of military operations and joint or multinational forces. Trainers and educators throughout the Army will also use this publication. FM 3-90-1 focuses on the organization of forces, minimum essential control measures, and general planning, preparation, and execution considerations for each primary offensive and defensive task. It is the common reference for all students of the art and science of tactics, both in the field and the Army school system. The offensive and defensive considerations in this publication apply to small tactical units, such as companies and battalions, even though most of the figures in this publication use the division and the brigade combat team (BCT) echelons to illustrate points in the text. Echelon-specific field manuals and Army techniques publications address the specifics of how each tactical echelon employs these tactical concepts.
