He has spent a lifetime analyzing the basic psychological principles that make works of visual art meaningful, stirring, indispensable, and lasting. But recent fashionable attitudes and theories about art, he argues, are undermining the foundation of artistic achievement itself. He says that we must face the threat 'that the work crew charged with erecting the edifice of our principles is infiltrated by termites.' Before beginning his training as a Seeing Eye dog, Shakespeare, a labrador retriever who understands human speech, is placed for his first year of life with a foster child who has never learned to love. An unwanted dog. An emotional rescue. Two lives forever changed. Laurie's dreams had been shattered before she came to work at Crystal Peaks Youth Ranch—the ranch of rescued dreams—where broken horses and broken children encounter healing every day. In an attempt to soothe her aching soul, Laurie reached out to save a dog in need. And she soon began to realize that the dog was rescuing her. An inspiring true story told through the engaging voice of Kim Meeder, Blind Hope reveals poignant life lessons Laurie experienced from her ailing, yet courageous canine friend. Despite the blindness of her dog—and her own heart—Laurie uncovered what she really needed most: authentic love, unconditional trust, and true acceptance, faults and all. As Laurie and her dog, Mia, both learned to follow the lead of a master they couldn't see, Laurie discovered the transforming power of God's grace even for imperfect and selfish people—and she experienced a greater love than she had ever known. "Love is a bridge that stands firm through difficulties and connects one heart directly to another, not because of how it looks, but because of what it is." —Kim Meeder, Blind Hope Adoption in a Color-blind Society illustrates how the political economy of private domestic adoption intersects with the political economy of racism to generate quite different demands for infants and children of different races and how the private adoption arena responds to these demands. This book argues that rather than moving towards a color-blind democracy, we instead live in a context where race continues to matter substantially, particularly

in arenas 'closest to home.' At the height of his show career, a beautiful Appaloosa became injured, and he moved from one owner to the next, ultimately experiencing severe abuse and neglect. A rescue group found Joey nearly dead from starvation--and blind. Then he came to Hope Reins, a ranch dedicated to helping kids who had been abused, emotionally wounded, or unwanted by teaching these children to care for rescued animals. In this heartfelt, thoughtful, and inspiring memoir, New York Times bestselling author Jon Katz tells the story of his beloved rescue donkey, Simon, and the wondrous ways that animals make us wiser and kinder people. In the spring of 2011, Jon Katz received a phone call that would challenge every idea he ever had about mercy and compassion. An animal control officer had found a neglected donkey on a farm in upstate New York, and she hoped that Jon and his wife, Maria, would be willing to adopt him. Jon wasn't planning to add another animal to his home on Bedlam Farm, certainly not a very sick donkey. But the moment he saw the wrenching sight of Simon, he felt a powerful connection. Simon touched something very deep inside of him. Jon and Maria decided to take him in. Simon's recovery was far from easy. Weak and malnourished, he needed near constant care, but Jon was determined to help him heal. As Simon's health improved, Jon would feed him by hand, read to him, take him on walks, even confide in him like an old and trusted friend. Then, miraculously, as if in reciprocation, Simon began to reveal to Jon the true meaning of compassion, the ways in which it can transform our lives and inspire us to take great risks. This radically different perspective on kindness and empathy led Jon to a troubled border collie from Ireland in need of a home, a blind pony who had lived outside in a pasture for fifteen years, and a new farm for him and Maria. In the great tradition of heroes—from Don Quixote to Shrek—who faced the world in the company of their donkeys, Jon came to understand compassion and mercy in a new light, learning to open up “not just to Simon, not just to animals, but to the human experience. To love, to risk, to friendship.” With grace, warmth, and keen emotional insight, *Saving Simon* plumbs the depths of the bonds we form with our animals, and the rewards of “living a more compassionate, considered, and meaningful life.” Praise for *Saving Simon* “Heartwarming . . . a touching tale.”—USA Today “Highly recommended . . . an enjoyable and thoughtful work.”—Library Journal (starred review) “[*Saving Simon*] handles the emotional highs and lows of living with animals with empathy and thoughtfulness, forcing readers to re-examine their own meanings of compassion and mercy.”—Kirkus Reviews “The message of this true story will linger with the reader long after the book has been placed on the shelf.”—Bookreporter

Former Army MP Mercy Carr and her retired bomb-sniffing dog Elvis are back in *Blind Search*, the sequel to the page-turning, critically acclaimed *A Borrowing of Bones*. It's October, hunting season in the Green Mountains—and the Vermont wilderness has never been more beautiful or more dangerous. Especially for nine-year-old Henry, who's lost in the woods. Again. Only this time he sees something terrible. When a young woman is found shot through the heart with a fatal arrow, Mercy thinks that something is murder. But Henry, a math genius whose autism often silences him when he should speak up most, is not talking. Now there's a murderer hiding among the hunters in the forest—and Mercy and Elvis must team up with their crime-solving friends, game warden Troy Warner and search-and-rescue dog Susie Bear, to find the killer—before the killer finds Henry. When an early season blizzard hits the mountains, cutting them off from the rest of the world, the race is on to solve the crime, apprehend the murderer, and keep the boy safe until the snowplows get through. Inspired by the true search-and-rescue case of an autistic boy who got lost in the Vermont wilderness, Paula Munier's mystery is a compelling roller coaster ride through the worst of winter—and human nature. Ginger, a golden retriever who works as a guide dog, spends the day with her blind owner, Peter, and his family. Includes brief notes on guide dogs. What does a blind dog do for fun? The last thing Gwen Cooper wanted was another cat. She already had two, not to mention a phenomenally underpaying job and a recently broken heart. But Homer was no ordinary cat. He was a three week old, abandoned, eyeless kitten and Gwen was unable to resist his charm. It was love at first sight. Homer, tagged as an 'underachiever' from day one, quickly proved his doubters wrong revealing himself to be a tiny dare devil with a giant heart and a passion for adventure. The kitten they said would never be as independent or as playful as the other cats eagerly made friends with every human who crossed his path, scaled seven foot bookcases with ease and chased off an intruder in the middle of the night. He even survived being trapped alone for days after 9/11 in an apartment near the World Trade Centre. *Homer's Odyssey* is the story of one cats unswerving loyalty, his infinite capacity for love, his constant happiness in the face of all obstacles and his ability to inspire and transform Gwen's life. He kept her company through the ups and downs of daily life and by the time she had met the man she would marry Gwen realised Homer had taught her the most valuable lesson of all: love isn't something you see with your eyes. Elise Lufkin and Diana Walker once again present a moving collection of profiles, in beautiful, duotone photographs and moving text, of dogs that have found new lives after being "throw away" dogs. Each dog (and one cat) profiled has had a rough past, suffering abuse or extreme neglect at the hands of humans. Some dogs featured here have become therapy dogs for hospitals and nursing homes; reading partners for children; friends to at-risk teens and the injured in veterans affairs hospitals; service dogs for the deaf and blind; arson dogs; and even search-and-rescue dogs. Some of these special dogs are disabled, blind, deaf, missing limbs, but they don't seem to know it. These spunky, happy animals

have repaid the kindness of their rescuers in spades, bringing the therapy of love to people in need, sometimes even saving lives. I was a rescuer for 47 years. I spent those years ignoring my own problems and trying to rescue everyone else. I had been socially programmed to be a rescuer by my family. Rescuing was part of my family-culture and ran through our DNA going back at least four generations. My grandfathers were rescuers too, and like me, their rescuing behaviours destroyed relationships and cost lives. My rescuing behaviours cost me two marriages, both ending in divorce, and left me burned-out and broke without food for my children on Christmas Eve. This is my story about how I chose to rescue myself first, break free of social conditioning and became a Rescuer-in-Recovery. I went from being burned-out and broke to living a thriving new life, writing a #1 Amazon best-seller and stepping into my own sovereign power. This book will show you the path to RESCUE YOURSELF FIRST and: How we can get a new perspective on our blind-spots, and find the gold in them; Why we can gain from understanding our limiting beliefs installed in childhood; How unlocking our unconscious is the key to becoming a rescuer-in-recovery; and, What actions we can take to get the right kind of help that sets us up to build a new thriving life. I help strong men and powerful women who have a deep-desire to make a positive difference in the world to learn to rescue themselves first. To overcome their unconscious negative self-beliefs and to choose to live a new vibrant life that they love. To become the person that they were always meant to be. One of my friends said to me once, "You're the first coach I've met that I don't want to punch in the face." She could bench press close to 100 kilos, so I'm really happy she didn't. And it is one of my proudest recommendations. Find out more at www.justinlodge.info
