The Pesticide Applicator Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: knowledge of commercial buildings and properties; application of chemicals in various forms; safety procedures and practices; and more. Pesticide handlers have never had an easy time keeping abreast of the regulations that affect them, but it is getting even more difficult as public pressure adds more layers of new rules. At the same time, there's a trend toward making the individual applicant more responsible for knowing the rules and for getting more training. This is the only volume that, in clear language, describes the system, the current issues in regulation, and the science behind them for the user. It can be helpful for the beginner, the veteran, or anyone who needs a reference encompassing the entire range of pesticide regulatory issues, such as groundwater, endangered species, recordkeeping, worker protection, and more. There's also an exclusive, first-ever compilation of the rules in all 50 states and the District of Columbia for the training and testing required to become a certified applicator-something that varies considerably from state to state. Abstract: Training manual for commercial pesticide applicators in the right-of-way pest-control category. Major topics: classification and types of weeds; application methods; principles of vegetation management; toxicity of pesticides; protecting human health and the environment; disposal; and label information. Abstract: Training manual for commercial pesticide applicators in the structural pest-control category.
