

novel-length story intended for adult readers, addressing the issues of the marriage system of the day in which women had no right to choose their husband or to refuse to marry. There is also a wealth of rich back story as to how the Prince became cursed and revelations about Beauty's parentage, which fail to appear in subsequent versions of the now classic fairy tale. Pop-ups and changing pictures animate the story in which a kind and beautiful maid releases a handsome prince from the spell which has made him an ugly beast. Manga-style adaptation of Beauty and the Beast. "Women entered the book trade in significant numbers in China during the late sixteenth century, when it became acceptable for women from "good families" to write poetry and seek to publish their collected poems. At about the same time, a boom in the publication of fiction began, and semiprofessional novelists emerged. This study begins with three case studies, each of which probes one facet of the relationship between women and fiction in the early nineteenth century. It examines in turn the prefaces written by four women for a novel about women; the activities of a woman editor and writer of fiction; and writings on fiction by three leading literary women. Building on these case studies, the second half of the book focuses on the many sequels to the Dream of the Red Chamber—one of which was demonstrably written by a woman—and the significance of this novel for women. As Ellen Widmer shows, by the end of the century, women were becoming increasingly involved in the novel as critical readers, writers, and editors. And if women and their relationship to fiction changed over the

nineteenth century, the novel changed as well, not the least in its growing recognition of the importance of female readers." This book is an in-depth retelling of the classic fairy tale. Scholarly interest in issues of national identity and representation has been increasing for years, and cinema is a major resource for that work, as it allows for cross-cultural dialogue and the

portrayal of different layers of representation and cultural stereotypes. "Beauty and the Beast" takes a look at the depictions of Italy and the Italians in British cinema. Elisabetta Girelli draws upon cultural and social history to assess the ongoing representation of Italianness in British film, and its crucial role in defining and challenging British national identity. Girelli provides an original survey of archival material such as World War II footage, and an analysis of significant British films like "Summer Madness" and "A Room With A View." Drawing on British literary and filmic tradition to analyze the rise of specific images of the Italian other, "Beauty and the Beast" is a noteworthy and unique contribution to film and cultural studies." 8 songs, including: Be Our Guest * Beauty and the Beast * Belle * Belle (Reprise) * Gaston * Gaston (Reprise) * The Mob Song * Something There. An intimate narrative history of World War I told through the stories of twenty men and women from around the globe--a powerful, illuminating, heart-rending picture of what the war was really like. Drawing on the diaries, journals, and letters of twenty individuals from Belgium, Denmark, France, Great Britain, Germany, Austria, Hungary, Italy, Australia, New Zealand, Russia, Venezuela, and the United States, Englund's collection of these varied perspectives describes not a course of events but "a world of feeling."
