This captivating book reproduces arguably the most extraordinary primary source documents in fashion history. Providing a revealing window onto the Renaissance, they chronicle how style-conscious accountant Matthäus Schwarz and his son Veit Konrad experienced life through clothes, and climbed the social ladder through fastidious management of self-image. These bourgeois dandies' agenda resonates as powerfully today as it did in the sixteenth century: one has to dress to impress, and dress to impress they did. The Schwarzes recorded their sartorial triumphs as well as failures in life in a series of portraits by illuminists over 60 years, which have been comprehensively reproduced in full color for the first time. These exquisite illustrations are accompanied by the Schwarzes' fashion-focussed yet at times deeply personal captions, which render the pair the world's first fashion bloggers and pioneers of everyday portraiture. The First Book of Fashion demonstrates how dress – seemingly both ephemeral and trivial – is a potent tool in the right hands. Beyond this, it colorfully recaptures the experience of Renaissance life and reveals the importance of clothing to the aesthetics and every day culture of the period. Historians Ulinka Rublack's and Maria Hayward's insightful commentaries create an unparalleled portrait of sixteenth-century dress that is both strikingly modern and thorough in its description of a true Renaissance fashionista's wardrobe. This first English translation also includes a bespoke pattern by TONY award-winning costume designer and dress historian Jenny Tiramani, from which readers can recreate one of Schwarz's most elaborate and politically significant outfits. Monumental study of English fashions from 1485 through 1603 surveys clothing worn by all classes and includes headgear, hairstyles, jewelry, collars, footwear, and other accessories. 1,000 black-and-white figures. 24 halftones. 22 color plates. The paperback edition of this captivating story of Tudor dress, and the people who made and wore it The Tudors are some of the best-known figures in history. They continue, even today, to spark our curiosity and imagination. Their enduring popularity is no doubt partly due to the iconic portraits in which they are depicted, in farthingales and ruffs, furs and jewels, codpieces and cloaks, and vast expanses of velvet and silk. Far from being mere decoration, fashion was pivotal in the communication of status and power. This paperback edition of Tudor Textiles presents insights into the fashions of the Tudor dynasty. Histories of Kings and Queens complement stories of unsung dressmakers, laundresses, and officials charged with maintaining and transporting the immense Tudor wardrobes from palace to palace. Evidence from rare surviving garments and textiles, original documents, fine and decorative art, and archaeological findings enhance our understanding of the Tudors and their courts. Handsomely illustrated, this sumptuous book contextualizes Tudor dress and fills in gaps in our knowledge of the period and its fascinating historical figures. Interdisciplinary volume which brings together papers by leading authorities in textile and costume studies, discussing a wide range of textiles and costumes from tapestries to embroideries, archaeological to

ethnographic textiles and exotic costumes in Europe and Asia. Subtitle on cover: Pattern cutting from the 16th to the 19th centuries. "Tak v bowes departed is an in-depth study of Article 4, British Library Manuscript Harley 2320. This treatise, which dates to the fifteenth century, gives instructions for making forty different braids of varying complexity. Braids such as these were used for a variety of purposes during the medieval period; lacing clothes, purse strings, decorative trim and seal tags. Tak v bowes departed concludes with modern instructions to make each of the braids; original errors have been corrected and noted, and each braid is clearly illustrated for reference. The instructions are provided as both text and diagrams, and include a detailed overview of the technique of 'fingerloop braiding'"--Publisher's web site. Scraps of clothing and other textiles are among the most evocative items to be discovered by archaeologists, signalling as they do their owner's status and concerns. This book traces the evolution of the style of men's dress through a sequence of diagrams accurately scaled down from patterns of actual garments, many of them rare museum specimens. The plates have been selected with the same purpose. Some are photographs of suits for which diagrams have also been given; others, reproduced from paintings and old prints, show the costume complete with its accessories. Quotations from contemporary sources--from diaries, travelers' accounts and tailors' bills--supplement Norah Waugh's text with comments on fashion and lively eyewitness descriptions. Few women of her time lived to see their name in print. But Katherine was no ordinary woman. She was Sir Walter Raleigh's mother. This is her story. No one interested in the history of dress, from art historians to stage designers, from museum curators to teachers of fashion and costume, can function effectively without Janet Arnold's Patterns of Fashion series, published by Macmillan since 1964. Since her untimely death in 1998, admirers of her work have been waiting, with increasing impatience, for the promised volume devoted to the linen clothes of the Elizabethan and early Stuart periods, a companion to her previous volume on tailored clothes of the same era. Planned and partly prepared by Janet herself, and completed by Jenny Tiramani, Janet's last pupil, no other book exists that is dedicated to the linen clothes that covered the body from the skin outwards. It contains full colour portraits and photographs of details of garments in the explanatory section as well as patterns for 86 items of linen clothing which range from men's shirts and women's smocks, from superb ruffs and collars to boot hose and children's stomachers. Beautifully produced, it is an invaluable guide to both the history and the recreation of these wonderful garments. Frequently reprinted, occasionally under the title Fashion in detail. Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century. A detailed study of Tudor textiles, highlighting their extravagant beauty and their impact on the royal court, fashion, and taste At the Tudor Court, textiles were ubiquitous in decor and ceremony. Tapestries, embroideries, carpets, and hangings were more highly esteemed than paintings and other forms of decorative art. Indeed, in 16th-century Europe, fine textiles were so costly that they were out of reach for average citizens, and even for many nobles. This spectacularly illustrated book tells the story of textiles during the long Tudor century, from the ascendance of Henry VII in 1485 to the death of his granddaughter Elizabeth I in 1603. It places elaborate tapestries, imported carpets, lavish embroidery, and more within the context of religious and political upheavals of the Tudor court, as well as the expanding world of global trade, including previously unstudied encounters between the New World and the Elizabethan court. Special attention is paid to the Field of the Cloth of Gold, a magnificent two-week festival—and unsurpassed display of golden textiles—held in 1520. Even half a millennium later, such extraordinary works remain Tudor society's strongest projection of wealth, taste, and ultimately power. "Detailed patterns ... line drawings and ... photographs ... [of] gentlewomen's garments for the years 1485 to 1520 ... This is an essential guide for students of 16th century dress"--P. [4] of cover. With 22 full-color illustrations and 25 black & white illustrations, all from the 16th century, the purpose of this book is to use 16th century sources to provide in a single volume the most comprehensive and accurate description so far available of 16th century Irish Gaelic and Scottish Gaelic clothing. Accordingly, this book presents and examines the watercolors, woodcuts, and manuscript illuminations of Lucas de Heere, Albrecht Dürer, the Ashmoleum Museum, Raphael Holinshed, John Derrick, and more. It also presents and examines the reports on Gaelic dress written in the 16th century by Nicolay d'Arfeville, John Lesley, Robert Lindsay of Pitscottie, John Major, Jean de Beaugué, George Buchanan, Lughaidh Ó Cléirigh, and William Camden. As a result of this extensive process of compilation and analysis, the author specifically identifies the most accurate 16th century illustrations of Irish Gaelic and Scottish Gaelic clothing. He also presents damning evidence that the most widespread images (and long considered the most important images) of 16th century Irish men and women are, to a large degree, a fraud perpetrated by a single 16th century propagandist - John Derrick. As an added bonus, the author includes a full chapter devoted to the law, custom, tradition, and worldview of the Irish Gaeil and Scottish Gaeil who wore these clothes.
