Eine Geschichte über das Erwachsenwerden und den Wert von Freundschaft
Der Roman erzählt von fünf Teenagern, die in den 30er Jahren in einem tristen, katholischen Konvent im australischen Outback aufwachsen. Erstmals in ihrem Leben können die Freunde in diesem Sommer ans Meer fahren. Doch die Idylle am Strand wird bald getrübt. Denn während der Ferien lernen die Jungen ein junges Paar kennen, das selbst keine Kinder bekommen kann. Das wären die perfekten Eltern! Und vielleicht besteht die Möglichkeit einer Adoption? Zwischen den fünf Jungen Maps, Sparks, Fido, Misty und Choker entfacht ein bitterer Wettstreit um die Gunst der potenziellen neuen Eltern. Ihre Freundschaft wird auf eine harte Probe gestellt!
The possibility that one of them might be adopted adds an element of rivalry to the adventures of five orphans

spending their Christmas holiday at an Australian seaside settlement in the late 1930s. Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another. The core of the study addresses the issue of how images of a nation, locale or country are constructed in translated children's literature, with the translation of Australian children's fiction into French serving as a case study. Issues examined include the selection of books for translation, the relationship between children's books and the national and international publishing industry, the packaging of translations and the importance of titles, blurbs and covers, the linguistic and stylistic features specific to translating for children, intertextual references, the function of the translation in the target culture, didactic and pedagogical aims, euphemistic language and explicitation, and literariness in translated texts. The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback,

the antipodes, the exotic, the wild, the unknown, the void, the end of the world, the young and innocent nation, and the Far West. Contemporary signifiers that construct Australia as urban, multicultural, Aboriginal, worldly and inharmonious are seriously under-represented. The study also shows that French translations are conventional, conservative and didactic, showing preference for an exotic rather than local specificity, with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism. The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu, especially through translated children's literature. But what was the truth? *Of Stiletto and Soul: The Memoirs of Gangster Mike The Last West Philadelphia Corner Boy* is a comprehensive and smooth recollection of the author's childhood experiences, family, youthful exploits, and his life with Philadelphia's legendary Corner Boys. "By the Book is an indispensable history of the literature of Queensland from its establishment as a separate colony in the mid-nineteenth century through major economic, political and cultural transformations to the beginning of the twenty-first century. Queensland figures in the Australian imagination as a frontier, a place of wild landscapes and wilder politics, but also as Australia's playground, a soft tourist paradise of warm weather and golden beaches. Based partly on real historical divergences from the rest of Australia, these contradictory images have been questioned and scrutini. On the hundredth anniversary of Ronald

Reagan's birth comes the twentieth-anniversary edition of Peggy Noonan's critically acclaimed bestseller What I Saw at the Revolution, for which she provides a new Preface that demonstrates this book's timeless relevance. As a special assistant to the president, Noonan worked with Ronald Reagan—and with Vice President George H. W. Bush—on some of their most memorable speeches. Noonan shows us the world behind the words, and her sharp, vivid portraits of President Reagan and a host of Washington's movers and shakers are rendered in inimitable, witty prose. Her priceless account of what it was like to be a speechwriter among bureaucrats, and a woman in the last bastion of male power, makes this a Washington memoir that breaks the mold—as spirited, sensitive, and thoughtful as Peggy Noonan herself. Without Consent is the horrific true story of what happened to women in a modern Irish hospital, Our Lady of Lourdes, Drogheda. Over the course of 25 years, Dr Michael Neary betrayed his patients, his profession and himself by unnecessarily removing the wombs, and sometimes ovaries, of a large number of women. Young women were denied the chance to become mothers, instead being forced to suffer early menopause, while many

older women had healthy organs removed for non-existent diseases. These women lost their faith in a hospital system they depended on. The story only emerged when a brave midwife, "Ann", told the truth, leading to one of the greatest scandals in modern Ireland. This is also the story of managers and health officials who did the right thing in the face of powerful opposition, and stolen or altered medical records. But most of all it is the story of the families, especially the women involved, who got together, took comfort from each other and ensured change for their children's sake. They fought medical secrecy and denial, political and official apathy, local opposition and legal obstacles. Along the way, they had help from trusted doctors, lawyers appalled by what was unfolding and politicians who finally responded to people power. *Without Consent* is a story about the fight for justice to right a terrible wrong, about the strength of solidarity in the face of tragedy. They are known as the "December boys" because all of them - Chocker (who tells the story, Fido, Spark, Misty and Maps - are thought to have been born in that month. And one December in the late 1930s they leave their Catholic orphanage in the dusty outback to spend the Christmas holidays at the

seaside settlement of Captain s Folly, staying with the eccentric Mr and Mrs McAnsh, who are partial to pumpkin wine. Wearing bathing costumes made from four-bags dyed black, the boys meet the ocean for the first time and are soon racing through the sandhills to plunge in the surf. But it is Teresa, the young wife of Fearless Foley, former stunt rider on the Wall of Death, who becomes the focus of those holidays, setting off intense ribaldry and competition between the boys which leads to a totally unexpected ending. The December Boys is a classic tale of an unforgettable summer beside the Pacific Ocean. First published in 1963, it was commended in the Miles Franklin Award. No area of the United States was untouched by the Great Depression, but the severity in which people experienced those significant years depended in large part on where in the nation they lived. While dust choked the life out of Americans in the plains, apples grew in abundance in the Northwest. This bibliography describes the youth literature and relevant resources written about the Great Depression, all categorized by

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions

make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right—and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language—including traditional elements as well as metafictional terms—enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
