Rigorous, detailed, and wide-ranging, University Finances is a unique and powerful resource. This book seeks to reclaim Capital from the myth of internal inconsistency, a myth that serves to justify the censorship of Marx's critique of political economy and present-day research based upon it. Andrew Kliman shows that the alleged inconsistencies are actually caused by misinterpretation. By modifying the standard interpretation of Marx's value theory in two simple ways, the recent temporal single-system interpretation eliminates all of the alleged inconsistencies. Written especially for the non-specialist reader, in a clear, accessible style and with the bare minimum of mathematics, Reclaiming Marx's Capital introduces readers to Marx's value theory and contrasting interpretations of it, the history of the internal inconsistency controversy, and interpretive standards and methods. Kliman then surveys Marx's falling-rate-of-profit theory, the relationship of prices to values (the transformation problem), Marx's

exploitation theory of profit, and other topics. The book ends with a discussion of why the myth of inconsistency persists, and a call to set the record straight. This instruction updates policy and procedural guidance for the Department of the Navy (DON) Sexual Assault Prevention and Response (SAPR) Program, and implements DoD Instruction 6495.02, " Sexual Assault Prevention and Response Program Procedures. " This instruction applies to all organizational entities of the DON and its two component Military Services, the United States Navy and the United States Marine Corps, including their reserve components.No form of sexual assault is ever acceptable anywhere in the DON. We seek a Department-wide culture of gender dignity and respect where sexual assault is completely eliminated and never tolerated, where sexual assault victims receive

compassionate and coordinated support, and where offenders are held appropriately accountable. Every Sailor, Marine, and DON civilian shares dual responsibilities for their own actions and for protecting each other from harm. Our Core Values demand nothing less. Combating sexual assault and supporting sexual assault victims are primary responsibilities at every level of civilian and military leadership. Commanders must take every report of sexual assault seriously, immediately refer reports to the Naval Criminal Investigative Service (NCIS) for investigation, support investigative and criminal justice procedures that enable persons to be held appropriately accountable, and actively protect sexual assault victims from retaliation or revictimization. We seek to help sexual assault victims heal as individuals and succeed in their careers. Individuals who file an Unrestricted or Restricted Report of sexual assault must be protected from reprisal, or threat of reprisal, for filing a report. Victim-support SAPR services and medical care must be victim-centric, gender-responsive, culturally competent, and recovery-oriented. Sexual assault victims shall be given priority and treated as emergency cases. To the maximum extent possible, processes and terminology shall be standardized across Services and organizations. The establishment of performance standards for key victim-support processes, and their periodic structured assessment, are necessary for ensuring consistent and effective victim support.

In *The Soul of Anime*, Ian Condry explores the emergence of anime, Japanese animated film and television, as a global cultural phenomenon. Drawing on ethnographic research, including interviews with artists at some of Tokyo's leading animation studios—such as Madhouse, Gonzo, Aniplex, and Studio Ghibli—Condry discusses how anime's fictional characters and worlds become platforms for collaborative creativity. He argues that the global success of Japanese animation has grown out of a collective social energy that operates across industries—including those that produce film, television, manga (comic books), and toys and other licensed merchandise—and connects fans to the creators of anime. For Condry, this collective social energy is the soul of anime.

The country's location within the region and population of more than 50m will help it achieve growth, with international analysts predicting Myanmar's economy to be worth up to \$200bn by 2030. With elections set to take place in late 2015, the world is eagerly watching to see how things will unfold. After spending decades as one of the most isolated and least-developed countries in Asia, Myanmar is emerging as one of the world's fastest-growing economies. Agriculture, manufacturing and mining are some of Myanmar's top contributors to GDP, which was forecast to reach 8.5% in FY2014/15 and FY2015/16. While foreign investment is accelerating, there are ways in which it remains blocked. As the country continues to reintegrate with the global economy, continued reforms as well as the opening of more economic sectors to foreign investors will help unlock the country's potential. Contains analyses that are designed to highlight specified subject areas or provide other significant presentations of budget data that place the budget in perspective. This volume includes economic and accounting analyses; information on Federal receipts and collections; analyses of Federal spending; information on Federal borrowing and debt; baseline or current service estimates; and other technical presentations. This volume also contains supplemental material on a CD-ROM in the printed document with several detailed tables, including tables showing the budget by agency and account and by function, subfunction, and program.

Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health conditions as

posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health-related outcomes—in particular, suicide—at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.
