***Metaphysics: The Basics is a concise and engaging introduction to the philosophical study of the world and universe in which we live. Concerned with questions about reality, existence, time, identity and change, metaphysics has long fascinated people but to the uninitiated some of the issues and problems can appear very complex. In this lively and lucid book, Michael Rea examines and explains key questions in the study of metaphysics such as: • Can two things be in the same place at the same time? • Do creatures of fiction exist? • Are human beings free? • Is time travel possible? • Is there just one world or many worlds? With a glossary of key terms and suggestions for further reading, the book considers key philosophical arguments around Metaphysics, making this an ideal starting point for anyone seeking a full introduction to the debates both within and about metaphysics.***

In AntArctic, the WWF ambassador created a sensitive double portrait of the polar regions. And in his characteristic aerial photographs, he even opened up new perspectives on well-known places like Mallorca. In this trade edition of The World, Poliza opens his digital treasure chest to reveal previously unpublished images from all seven continents. Like a true photographic world tour, we travel with him to Australia and New Zealand, to Vietnam and Myanmar, to the west of the USA and north to Canada, to the Galapagos Islands and Bolivia, across the Antarctic and the many lands of Africa. No matter how different the regions he explores, the photographer always captures extraordinary images, instilling both the beauty of our planet and an urgent need to protect the natural world. ***Sparta Jun 02 2020 This volume introduces the reader to every important aspect of the society of Sparta, the dominant power in southern Greece from the seventh century BC and the great rival of democratic Athens in the fifth and fourth centuries. During this period Sparta evolved a unique social and political system that combined egalitarian structures, military ideals and brutal oppression, and permitted male citizens to focus on the practice of war. The system fascinated scholars at the time and has done so ever since: its outlines are clear, but because of the nature of the evidence almost all detailed aspects of Spartan social practices and constitutional affairs are open to debate. Michael Whitby introduces and presents some of the most outstanding contributions to the history of Sparta. Together they cover the key aspects of Spartan history and society: its problematic early history, social and economic organisation (especially the different categories of citizens and non-citizens), international relations and military achievements, religious practices and culture, the role of women, and sexual conduct and values. He has chosen them partly for their clarity and importance, and partly too for the***

Drawing on his unique experience of having filmed all the past ten Prime Ministers, Cockerell tells how he manages to lull some of the wariest people in the land into candour, and shows how questions of sex are never far from the surface in Westminster. Amongst much else, he recounts: how Margaret Thatcher flirted with him on screen but attacked him by name in the Commons; how Tony Blair said he would willingly 'pay the blood price' in Iraq; how David Cameron learned from Enoch Powell always to make a big speech on a full bladder - and how Boris Johnson admitted to doubts about his ability to be Prime Minister. ***Now Leaves Apr 05 2023 "NOW LEAVES***

*describes leaving and having left. Glossolalia like, against noise, about the bones of a writing, written in tongue graphics legible by reason of the trees with as many words as there are leaves. The percussion of these leaves is f\*\*\*ing news. The percussion of these leaves is not his news. The percussion of these leaves is not her news. The percussion of these leaves is definitely not their news. NOW LEAVES presents itself as a block. Physically it adopts the scale of a human hand, its weight present, its structure flexible, almost human. The pages fall loosely apart to reveal dense black graphics ? letters shaped as tongues, twisted to form barely legible words. Each page inscribed, playing on repetition, the word ?leaves? repeatedly tongued. The successive pages form statements, occasionally benign ? it starts LEAVES FOR LEAVES ? but as the pages turn a more visceral violence exudes from the pages ? SLAVE LEAVES HAPPY LEAVES, FUCKING LEAVES LOST LEAVES KILL LEAVES, BLOODY LEAVES POSITION LEAVES. Whilst visually arresting, the experience of reading Dean?s book reduces reading to the physical intimacy of your own mouth; as you to attempt to read the barely decipherable words to take pleasure in the babble, you feel your eyes contort as your own tongue does trying to shape the words, tempted to twist, stretch or replicate the graphic tonguing on the page." --Michael*

***Knowledge Jun 26 2022 What is it about knowledge that makes us value it more highly than mere true belief? This question lies at the heart of epistemology and has challenged philosophers ever since it was first posed by Plato. Michael Welbourne's examination of the historical and contemporary answers to this question provides both an excellent introduction to the development of epistemology but also a new theory of the nature of knowledge. The early chapters introduce the main themes and questions that have provided the context for modern discussions. The Platonic beginnings, Cartesian individualism and the tripartite analyses of knowledge are examined in turn. In the second half of this book, the focus shifts from conceptual analysis to an examination of the social practices surrounding knowledge, placing special emphasis on the notion of testimony. The author argues originally and persuasively that our idea of knowledge has its roots in communicative practices and that thinking about how testimony works as a source of beliefs actually gives us a handle on the very idea of knowledge itself. *Michael Jackson Conspiracy Jan 22 2022 An insightful read by the New York Times*  
*Bestselling author and star of True Crime with Aphrodite Jones. Michael Jackson was the pop icon the media loved to hate. Tremendously wealthy, inarguably eccentric, and one of the most famous people in the world, Jackson was the unenviable target of constant public humiliation. The media poked fun at his skin, his features, his sexuality, and his lifestyle. Here, seasoned crime reporter Aphrodite Jones condemns the media for perpetuating hateful rumors and innuendoes, recounting just the sordid details, and reporting only the most despicable accusations and grisly charges made against Michael Jackson during his criminal trial. They had built a highly profitable industry around the superstar's "freaky life" and banked on his conviction. And, it turns out, they got it all wrong. In their efforts to make money and win ratings, the media missed the truth. It wasn't until after the "not guilty" verdict that Jones had the insight and courage to admit her own unintentional role in the frenzy surrounding the shocking testimony, high drama, and countless celebrities in Michael Jackson's high-profile criminal trial. Bestselling author and TV host*

***Jones makes amends with what is not only a truthful, well-documented chronicle of the entire trial but a powerful indictment against the media for conspiring to distort, dehumanize, and destroy Michael Jackson. She argues convincingly that the case against Jackson amounted to nothing more than a media-made, tax-paid scandal, and she makes an impassioned call to action for the public-at-large to think critically, question the integrity, and demand the truth in the "news".***
