In a searing critique of the War on Drugs and other attempts to eradicate "getting high," Lenson ventures outside the conventional genres of drug writing and looks at the drug debate from a lost, and often forbidden, point of view: the user's. Walking a fine line between the antidrug hysteria prevalent in our culture and an uncritical advocacy of drug use, he describes in provocative detail the experiences and dynamics of drugs of pleasure and desire. "Since its colonization by Earth, Pacifica has flourished. Now, under the guidance of Chairman Carlotta Madigan and her lover and Minister of Media, Royce Lindblad, it is the galaxy's supreme electronic democracy, a Utopian world where both sexes equally serve and are served by The Media. But there are those who would have it otherwise, who have come to Pacifica to turn its very freedom into an instrument of its bondage, who have launched a devastating media war on Pacifica to divide... and conquer."--Page 4 of cover. Pacifica has the nickname "Scenic Pacifica" because of its beautiful ocean vistas and lovely hillside views. Twelve miles south of San Francisco, the city of Pacifica grew rapidly, although not to the size that some had predicted. A haven for young families, Pacifica fostered strong leaders among housewives, environmental activists, and businesspeople. The strength of Pacifica, other than its natural beauty, has always been its people. The schools,

service clubs, and athletic fields produced local celebrities, but the proximity to San Francisco helped forge more widely known legends. This combination of personalities helped make it possible to identify a broad spectrum of legendary locals, from a woman who was the first mayor of Pacifica to a successful comedian who earned national attention on Saturday Night Live and in the movies. Ninety-five years ago the enormous interplanetary space vehicle, the Pacifica, with a numerous crew, suddenly and inexplicably disappeared as it neared the planet Pluto. None of the probes directed towards the planet after the disaster found any evidence that the vessel and its crew had ever existed. Now, a century later, the wreck of the huge ship has been sighted, lying shrouded in the hazy-black starlight on the Plutonian surface. A shuttle has been fitted for the dangerous journey to the seventh planet, and with three crewmembers aboard, has made the first attempt to reach Pluto since the loss of the Pacifica. As the shuttle approaches the planet, it also 'suddenly and inexplicably' disappears and is lost. Although the crew of three is believed to have perished, they have not, and will carry on with their mission: to determine how the Pacifica met its fate. The truth, however, may be found only beyond reason, or even beyond imagination, and the three astronauts may wish that they never sought answer to this great mystery.
