This book follows the newest iterations of the Microsoft Official Academic Course (MOAC) program for database administration courses using SQL Server 2005 and SQL Server 2008. It provides the information and resources needed to prepare students for the Microsoft Certified Information Technology Professional (MCITP) 70-444 exam for SQL Server 2005, and the 70-432 Microsoft Certified Technology Specialist (MCTS) exam for SQL Server 2008. Hands On Exercises and Certification Ready features are integrated with the accompanying Lab Manual throughout the chapters that enable them to reinforce what they've learned by completing various

exercises. Business cases are presented to provide a real world perspective on how the information is used in the field. The book also includes a CD that enables students with exam practice and instant feedback. By following the exercises in this book, students will learn how to install and configure SQL Server, manage databases, implement security, troubleshoot SQL activity, and more. The Human Body Owner's Workshop Manual explains how some of the fundamental ideas that we take for granted may well be just an incorrect interpretation of observed phenomena and provides a radical and controversial view of the mysterious human body and its integral relationship to the universe it inhabits. It also proposes convincing alternatives to the dis-empowering theories of nutrition and disease and provides the tools required to operate the body and assist it in eliminating toxic substances and heal itself of any state of bad health.
