**Lanterns on the Levee - Recollections of a Planter's Son** Nov 25 2022 This fascinating volume contains the memoirs of William Alexander Percy, who was born and raised in Mississippi and witnessed the social changes at the turn of the century. 'Lanterns on the Levee' is his memorial to the South within which he describes life in the Mississippi Delta, during the time between the semi-feudal South of the 1800s and the uncertain South of the early 1940s. This is a book that will be of much value to anyone with an interest in the history and development of southern American society. It is not one to be missed by collectors of William Alexander Percy's important literature. William Alexander Percy (1885 - 1942) was a lawyer, planter, and poet from Greenville, Mississippi, most famous for writing this best-selling biography. We are republishing this text now in a modern, affordable edition complete with a new prefatory biography of the author.

Slade Sep 11 2021 MARY is the perfect tool to use against the man who took his sister, Lily. What better way to exact retribution from Governor Hagen and force him to bring Lily back, than to steal his own daughter and threaten to sell her as a sex slave, too? But, even the best laid plans don't always go smoothly. Slade ends up falling for his captive, and is faced with a decision that might just cause him to lose the one thing he doesn't want to let go. SLADE is every bit the animal he portrays. Dominant, dark, unbending, and possessive-her own personal predator. Mary can't help but be drawn to the soul deep darkness in him. It calls to her like nothing she's ever felt before. When her father bends to Slade's will and releases Lily, will Mary be allowed to walk away and follow her father's plans to marry another, or will Slade make her a captive to the dark...forever? WARNING: This book contains very graphic violence, disturbing situations, dubious consent, and very strong language. All Captive to the Dark books are STANDALONES except for Special Editions which are focused on favorite secondary characters. They all have a HEA.

**Mastering the Art of War** Jan 16 2022 Composed by two prominent statesmen-generals of classical China, this book develops the strategies of Sun Tzu's classic, The Art of War, into a complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully, both materially and mentally, and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, Mastering the Art of War presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between The Art of War and the oldest handbook of strategic living, the I Ching (Book of Changes).

Mathematics in Ancient Greece Apr 26 2020 More than a history of mathematics, this lively book traces mathematical ideas and processes to their sources, stressing the methods used by the masters of the ancient world. Author Tobias Dantzig portrays the human story behind mathematics, showing how flashes of insight in the minds of certain gifted individuals helped mathematics take enormous forward strides. Dantzig demonstrates how the Greeks organized their precursors' melange of geometric maxims into an elegantly abstract deductive system. He also explains the ways in which some of the famous mathematical brainteasers of antiquity led to the development of whole new branches of mathematics. A book that will both instruct and delight the mathematically minded, this volume is also a treat for readers interested in the history of science. Students and teachers of mathematics will particularly appreciate its unusual combination of human interest and sound scholarship.

**Murrine from Murano** Jun 20 2022 Colourful and dynamic art inspires me. However, I never expected it to lead me on a life-changing journey. A physical and intellectual journey. Physical because it involved the discovery and examination of vases of extraordinary beauty from Venice and Murano, Italy. Intellectual because it involved deep reflection about the meaning of art and its function as a "repository and conduit of culture". My journey centered around the work of Vittorio Ferro. With a working life in the glass industry of sixty-seven years, he was one of the world's greatest masters of murrine glass. My interest fast became multi-dimensional, I began photographing vases and went to Venice and Murano to find out more. Publishing became important to complete what had become a significant and passionate part of my life. This book records my journey. A "vasegraphy" (va:z-e-grafi) or study of sixty-seven rare murrine vases made by Vittorio Ferro, one-third signed, revealed in a kaleidoscope of Venice and Murano, and my new understanding of art. A photographic journey with a fresh approach to glass.

**Einstein on Race and Racism** Mar 30 2023 Nearly fifty years after his death, Albert Einstein remains one of America's foremost cultural icons. A thicket of materials, ranging from scholarly to popular, have been written, compiled, produced, and published about his life and his teachings. Among the ocean of Einsteinia-scientific monographs, biographies, anthologies, bibliographies, calendars, postcards, posters, and Hollywood films-however, there is a peculiar void when it comes to the connection that the brilliant scientist had with the African American community. Nowhere is there any mention of his close relationship with Paul Robeson, despite Einstein's close friendship with him, or W.E.B. Du Bois, despite Einstein's support for him. This unique volume is the first to bring together a wealth of writings by the scientist on the topic of race. Although his activism in this area is less well known than his efforts on behalf of international peace and scientific cooperation, Einstein spoke out vigorously against racism both in the United States and around the world. Fred Jerome and Rodger Taylor suggest that one explanation for this historical amnesia is that Einstein's biographers avoided "controversial" topics, such as his friendships with African Americans and his political activities, including his involvement as co-chair of an antilynching campaign, fearing that mention of these details may tarnish the feel-good impression his image lends topics of science, history, and America. Combining the scientist's letters, speeches, and articles with engaging narrative and historical discussions that place his public statements in the context of his life and times, this important collection not only brings attention to Einstein's antiracist public activities, but also provides insight into the complexities of antiracist culture in America. The volume also features a selection of candid interviews with African Americans who knew Einstein as children. For a man whose words and reflections have influenced so many, it is long overdue that Einstein's thoughts on this vital topic are made easily accessible to the general public.

**Green's Dictionary of Slang (multi-volume set)** Aug 30 2020 The three volumes of Green's Dictionary of Slang demonstrate the sheer scope of a lifetime of research by Jonathon Green, the leading slang lexicographer of our time. A remarkable collection of this often reviled but endlessly fascinating area of the English language, it covers slang from the past five centuries right up to the present day, from all the different English-speaking countries and regions. Totalling 10.3 million words and over 53,000 entries, the collection provides the definitions of 100,000 words and over 413,000 citations. Every word and phrase is authenticated by genuine and fully-referenced citations of its use, giving the work a level of authority and scholarship unmatched by any other publication in this field. **Mustache Shenanigans** Nov 13 2021 Director, writer, and actor Jay Chandrasekhar tells the hilarious stories behind his films Super Troopers and Super Troopers 2 (out on 4/20/2018!), the history of his comedy group, Broken Lizard, and everything in between. Jay Chandrasekhar has spent the past two decades writing, directing, and acting in film and TV. With his comedy group, Broken Lizard, he has produced and directed beloved movies such as Super Troopers, Beerfest, and Club Dread. Now, with the upcoming release of the long-awaited Super Troopers 2, Jay is ready to tell the ridiculous, madcap, dead-honest story of how he built his career, how he formed Broken Lizard, and, ultimately, how he made Super Troopers. Jay grew up Indian American in the lily-white suburbs of Chicago, and he had an outsider's perspective from the beginning. Instead of taking the traditional acting path, he formed his own troupe, wrote his own scripts, and made movies his own way. And he had an incredibly good time doing so as readers will learn in this hilarious story about making it in Hollywood and directing, cowriting, and costarring in one of the best-loved and most-watched comedies of all time. Part humorous memoir, part film study, this book will inform, entertain, and tell readers what drinking multiple bottles of maple syrup is really like.

**A History of Cant and Slang Dictionaries** Dec 03 2020 In the fourth volume of her pioneering history, Julie Coleman considers the trends of lexicographers in a period dominated by the Second World War, the Cold War, civil rights movements, and varying youth trends. It will fascinate all those interested in slang and its relationship with social and cultural change.

**Zen Training** Apr 30 2023 Zen Training is a comprehensive handbook for zazen, seated meditation practice, and an authoritative presentation of the Zen path. The book marked a turning point in Zen literature in its critical reevaluation of the enlightenment experience, which the author believes has often been emphasized at the expense of other important aspects of Zen training. In addition, Zen Training goes beyond the first flashes of enlightenment to explore how one lives as well as trains in Zen. The author also draws many significant parallels between Zen and Western

philosophy and psychology, comparing traditional Zen concepts with the theories of being and cognition of such thinkers as Heidegger and Husserl.
