Vernacular English Feb 03 2023 "After India's Partition and independence in 1947, "cleansing" Hindi by removing Urdu words was part of the nation's effort to disavow Islamic influence and to forge an exclusively Hindu "Indian" identity. Sanskritized Hindi was anointed the official language of India in 1950, a move protested by non-Hindi-speaking people; in 1963, lawmakers responded to these protests by making English an associate official language. Itself a language steeped in a history of colonial violence, English nevertheless was chosen to mend the gaps created by the imposition of Hindi and to uphold the ideal of democracy. This book

considers English as part of the multilingual local milieu of India (a country where more than twenty languages are spoken) not as a colonial language imposed from without. Through a close study of English in India, from the language policies under British rule to the present day, Akshya Saxena argues that low castes and minority ethnic groups—those oppressed by or denied access to English—have routinely and effectively used the language to make political demands on the state. The book examines the ways that Indians use English in literary, spoken, and visual media, from novels to films to global protest movements, to express and shape their experience within the Indian state"--

Outlines of English and American Literature May 26 2022 DigiCat Publishing presents to you this special edition of "Outlines of English and American Literature" (An Introduction to the Chief Writers of England and America, to the Books They Wrote, and to the Times in Which They Lived) by William J. Long. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The Medieval Hero on Screen Jun 02 2020 Few figures have captured Hollywood's and the public's imagination as completely as have medieval heroes. Cast as

chivalric knight, warrior princess, "alpha male in tights," or an amalgamation, and as likely to appear in Hong Kong action flicks and spaghetti westerns as films set in the Middle Ages, the medieval hero on film serves many purposes. This collection of essays about the medieval hero on screen, contributed by scholars from a variety of disciplines, draws upon a wide range of movies and medieval texts. The essays are grouped into five sections, each with an introduction by the editors: an exploration of historic authenticity; heroic children and the lessons they convey to young viewers; medieval female heroes; the place of the hero's weapon in pop culture; and teaching the medieval movie in the classroom. Thirty-two film stills illustrate the work, and each essay includes notes, a filmography, and a bibliography. There is a foreword by Jonathan Rosenbaum, and an index is included. Instructors considering this book for use in a course may request an examination copy here.

Tales of Heroes: taken from English history. By the author of "the Juvenile Sunday Library," etc Jan 02 2023

STANDARD ENGLISH GRAMMAR Jan 10 2021 This book focuses on English Grammar in its own right. Most chapters of this grammar book include mention of differences between spoken and written grammar and aspects of context that affect choices of grammar. Those chapters give more detailed examples of items and structures described in this book. It is difficult fully to represent spoken grammar in a written book. Although the corpus used as the source of examples in this book provides useful evidence of spoken usage, the corpus has not been systematically coded for phonetic and prosodic features. Variations in stress, intonation contour, voice quality and other aspects such as loudness and tempo, rhythm and length of pauses are not indicated. And the citations from the corpus are presented in written form so that there always remains an underlying bias towards writing in the transcription itself. This bias towards written language also means that appropriate terms for describing special features of spoken grammar are not always available in existing grammatical frameworks. In some cases new terminology has to be introduced.

100 Stories of Joha Sep 05 2020 100 funny stories of Joha, the beloved folk hero of the EastBilingual English - Standard Arabic...for language Learners and fun, easy reading

A Very English Hero May 06 2023 Modest, handsome and a fine poet, eccentric Englishman Frank Thompson made an unlikely soldier. Brother of E. P. Thompson and lover of Iris Murdoch, Frank was an intellectual idealist, a rare combination of brilliant mind and enormous heart. Of his wartime experiences, Frank wrote prodigiously. His letters, diaries and poetry still read fresh and intimate today - and it is from these that Peter J. Conradi brings vividly to life a brilliantly attractive and courageous personality. Aged just twenty-three, Frank was captured, tortured

and executed in Bulgaria. A soldier of principle and integrity, he fought a poet's war; a very English hero from a very different era.

The Columbia Guide to Standard American English Feb 29 2020 In the most reliable and readable guide to effective writing for the Americans of today, Wilson answers questions of meaning, grammar, pronunciation, punctuation, and spelling in thousands of clear, concise entries. His guide is unique in presenting a systematic, comprehensive view of language as determined by context. Wilson provides a simple chart of contexts—from oratorical speech to intimate, from formal writing to informal—and explains in which contexts a particular usage is appropriate, and in which it is not. The Columbia Guide to Standard American English provides the answers to questions about American English the way no other guide can with: * an A–Z format for quick reference; * over five thousand entries, more than any other usage book; * sensible and useful advice based on the most current linguistic research; * a convenient chart of levels of speech and writing geared to context; * both descriptive and prescriptive entries for guidance; * guidelines for nonsexist usage; * individual entries for all language terms. A vibrant description of how our language is being spoken and written at the end of the twentieth century—and how we ourselves can use it most effectively—The Columbia Guide to Standard American English is the ideal handbook to language etiquette: friendly, sensible, and reliable.

Encyclopedia of Folk Heroes Jun 14 2021 Entries describe the origins and deeds of folk heroes as they have existed in folktales, songs, oral tradition, and other folklore genres.

Shakespeare's Non-Standard English Nov 07 2020 Most scholarly attention on Shakespeare's vocabulary has been directed towards his enrichment of the language through borrowing words from other languages and has thus concentrated on the more learned aspects of his vocabulary. But the bulk of Shakespeare's output consists of plays in which he employs a colloquial and informal style using such features as discourse markers or phrasal verbs. Both today and in earlier periods many informal words were gradually accepted into the standard language, and it may be difficult to recognize when certain words have become acceptable. This dictionary lists the types of words which constitute informal language, which are most often associated with less educated speakers. As with other books in this series the words are grouped either by semantic identity, such as words for 'head', or by some linguistic feature such as 'discourse markers', with some words that don't fit into specific categories, listed separately. >

European Heroes Nov 19 2021 Historians of popular culture have recently been addressing the role of myth, and now it is time that social historians of sport also examined it. The contributors to this collection of essays explore the symbolic meanings that have been attached to sport in Europe by considering some of the mythic heroes who have dominated the sporting landscapes of their own countries. The ambition is to understand what these icons stood for in the eyes of those who watched or read about these vessels into which poured all manner of gender, class and patriotic expectations.

On Heroes, Hero-worship, & the Heroic in History Apr 24 2022

A Reference Guide for English Studies Aug 05 2020 This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies, which Marcuse defines as "all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature." Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as James L. Harner's *Literary Research Guide* (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume.-- Jack Bales, Mary Washington Coll. Lib., Fredericksburg, Va. -*Library Journal*.

Woman As Hero In Old English Literature Apr 05 2023 The first comprehensive study of heroic women figures in Anglo-Saxon literature investigates English secular and religious prose and poetry from the seventh to the eleventh centuries. Given the paucity of surviving literature from the Anglo-Saxon period, the works which feature major women characters -- often portrayed as heroes -- seem surprisingly numerous. Even more striking is the strength of the female characterizations, given the medieval social ideal of women as peaceful, passive members of society. The task of this study is to examine the existing sources afresh, asking new questions about the depictions of women in the literature of the period. Particular attention is focused on the failed, possibly adulterous women of 'The Wife's Lament' and 'Wulf and Eadwacer', the monstrous mother of Grendel in

'Beowulf', and the chaste but heroic figures and saints Judith, Juliana, and Elene. The book relies for its analysis on recent and standard texts in Anglo-Saxon studies and literature, as well as a thorough grounding in Latin and vernacular historical documents and Anglo-Saxon writings other than the focal literary texts.

English Literature, Its History and Its Signi the English-Speaking World Oct 31 2022 This book, which presents the whole splendid history of English literature from Anglo-Saxon times to the close of the Victorian Era, has three specific aims. The first is to create or to encourage in every student the desire to read the best books, and to know literature itself rather than what has been written about literature. The second is to interpret literature both personally and historically, that is, to show how a great book generally reflects not only the author's life and thought but also the spirit of the age and the ideals of the nation's history. The third aim is to show, by a study of each successive period, how our literature has steadily developed from its first simple songs and stories to its present complexity in prose and poetry. To carry out these aims we have introduced the following features: (1) A brief, accurate summary of historical events and social conditions in each period, and a consideration of the ideals which stirred the whole nation, as in the days of Elizabeth, before they found expression in literature. (2) A study of the various literary epochs in turn, showing what each gained from the epoch preceding, and how each aided in the development of a national literature. (3) A readable biography of every important writer, showing how he lived and worked, how he met success or failure, how he influenced his age, and how his age influenced him. (4) A study and analysis of every author's best works, and of many of the books required for college-entrance examinations. (5) Selections enough--especially from earlier writers, and from writers not likely to be found in the home or school library--to indicate the spirit of each author's work; and directions as to the best works to read, and where such works may be found in inexpensive editions. (6) A frank, untechnical discussion of each great writer's work as a whole, and a critical estimate of his relative place and influence in our literature.

The Hero with a Thousand Faces May 14 2021 In this compelling and influential work, Joseph Campbell scours the myths of the world to reveal the characteristics common to heroes from all cultures and periods.

The Tragic Hero Through Ages Oct 07 2020 The Tragic Hero through Ages is an illuminating work on the greatest Greek and English tragedies and their heroes. The first chapter deals with the Greek tragedies and their heroes. The next three chapters study the outstanding pre-Shakespearean, Shakespearean and post-Shakespearean tragedies and their heroes. The Miltonic and the Byronic heroes have been studied in fifth and sixth chapters, respectively. The closing chapter summarizes the whole work and many undiscovered facts have been brought to light. It is genuine contribution to the whole theory of Greek and English tragic drama. It embodies the most famous speeches and best scenes from the greatest Greek and English Tragedies: their short summaries and the lifelike portraits of their heroes. It is a running commentary on the Greek and English tragic drama, spreading over a span of 2500 years with all its charm and grandeur. It is a colossal work with the finish of an exquisite piece of jewellery.

Gods, Heroes, & Kings Mar 12 2021 The islands of Britain have been a crossroads of gods, heroes, and kings-those of flesh as well as those of myth-for thousands of years. Successive waves of invasion brought distinctive legends, rites, and beliefs. The ancient Celts displaced earlier indigenous peoples, only to find themselves displaced in turn by the Romans, who then abandoned the islands to Germanic tribes, a people themselves nearly overcome in time by an influx of Scandinavians. With each wave of invaders came a battle for the mythic mind of the Isles as the newcomer's belief system met with the existing systems of gods, legends, and myths. In Gods, Heroes, and Kings, medievalist Christopher Fee and veteran myth scholar David Leeming unearth the layers of the British Isles' unique folkloric tradition to discover how this body of seemingly disparate tales developed. The authors find a virtual battlefield of myths in which pagan and Judeo-Christian beliefs fought for dominance, and classical, Anglo-Saxon, Germanic, and Celtic narrative threads became tangled together. The resulting body of legends became a strange but coherent hybrid, so that by the time Chaucer wrote "The Wife of Bath's Tale" in the fourteenth century, a Christian theme of redemption fought for prominence with a tripartite Celtic goddess and the Arthurian legends of Sir Gawain-itself a hybrid mythology. Without a guide, the corpus of British mythology can seem impenetrable. Taking advantage of the latest research, Fee and Leeming employ a unique comparative approach to map the origins and development of one of the richest folkloric traditions. Copiously illustrated with excerpts in translation from the original sources, Gods, Heroes, and Kings provides a fascinating and accessible new perspective on the history of British mythology.

The English Hero, 1660-1800 Oct 19 2021 This book proposes that allegory is not a

species of literature but a structure of reading applied to uncomfortable juxtapositions within literary texts. Examples from centuries of response to English Renaissance narrative poetry show not what poems mean but how they may be read and what cultural conditions encourage allegorical or nonallegorical readings. The study also encompasses interpretations of classical verse, biblical parable, Jacobean masque, modern lyric, and television advertising to explore how texts move in and out of the category of allegory.

A Standard Dictionary of the English Language Dec 29 2019

***On Heroes, Hero-Worship, and the Heroic in History* Mar 24 2022** In his 1840 lectures on heroes, Thomas Carlyle, Victorian essayist and social critic, championed the importance of the individual in history. Published the following year and eventually translated into fifteen languages, this imaginative work of history, comparative religion, and literature is the most influential statement of a man who came to be thought of as a secular prophet and the "undoubted head of English letters" (Emerson). His vivid portraits of Muhammad, Dante, Luther, Napoleon—just a few of the individuals Carlyle celebrated for changing the course of world history—made *On Heroes* a challenge to the anonymous social forces threatening to control life during the Industrial Revolution. In eight volumes, The Strouse Edition will provide the texts of Carlyle's major works edited for the first time to contemporary scholarly standards. For the general reader, its detailed introductions and annotations will offer insight into the author's thought and a reconstruction of the diverse and often arcane Carlylean sources.
